PROFILE

Frontend Developer & Design Engineer passionate about building fast, accessible, and beautiful web experiences. Specializing in **Next.js**, **TypeScript**, and **Tailwind CSS** while deeply understanding operating systems and web architecture.

PROFESSIONAL EXPERIENCE

Frontend Developer & Designer 02/2025 – Present
Innovative Application Consultants Remote

- Owned **frontend architecture** implementation across multiple client projects from **planning** through **production** deployment.
- Led the **technical execution** complete from **design to development**, delivering **20+ projects** ahead of schedule and with **zero** critical launch issues.
- Introduced shared **coding standards** and **code review** practices that reduced regressions and improved maintainability in our department.

Frontend Intern 08/2024 – 01/2025
Augutsya Techno Projects Remote

- Developed **responsive UI components** and modern front-end interfaces using component-based architecture, while integrating **REST APIs** into web applications.
- Collaborated with the development team to build **scalable** web solutions, contributing to **UI/UX improvements** and **client-facing** projects.

Graphic Designer 08/2023 – 07/2024
Saanwara Remote

- Created **illustrations** and visual communication materials for **marketing campaigns**, delivering high-quality **creative work** within project timelines.

SKILLS

- Frontend:** Next.js | React.js | Tailwind CSS | shadcn/ui | SCSS | HTML5 | RESTful API | WebSockets
- Design:** UI/UX Principles | GSAP Animations | Framer Motion | Figma | Affinity Studio
- Languages:** Typescript | Javascript | Swift | Python | LaTeX | Lua
- Tools:** Shell Scripting | Linux | TUI Tools | Git | Turbopack | Vite | CI/CD | Cypress

SHOWCASE PROJECTS

Spider UI 2026
Open-source Component Library

- Distributing free **design focused** and motion based web components. React components built with **Tailwind**, **TypeScript**, and **Framer Motion**.

Hydra Launcher 2025
Open-source Steam Alternative

- Part of the core development team of Hydra Launcher, an open source steam alternative with over **16,000 github stars** and over **2.7M users**.
- Worked with **aria2c**, **typescirtpt** and **SCSS** while collaborating with other developers to maintain the project and introduce new features.
